About Us

Assilum Developers Uganda Ltd is a multidisciplinary engineering and technical services firm headquartered in Uganda, delivering dependable infrastructure solutions across Africa and beyond. We work alongside public and private sector clients to design, build, commission, and maintain the infrastructure they depend on with the precision, safety, and follow-through every project deserves.

For over six years, we've built our name on technical excellence, safety leadership, and genuine partnership. Our engineers and technical specialists bring deep regional knowledge and international best practice to every project, so what we build is built to last.

Vision & Mission

Vision Statement

To be East Africa's most trusted partner in engineering and technical services setting the standard for innovation, safety, and sustainable infrastructure.

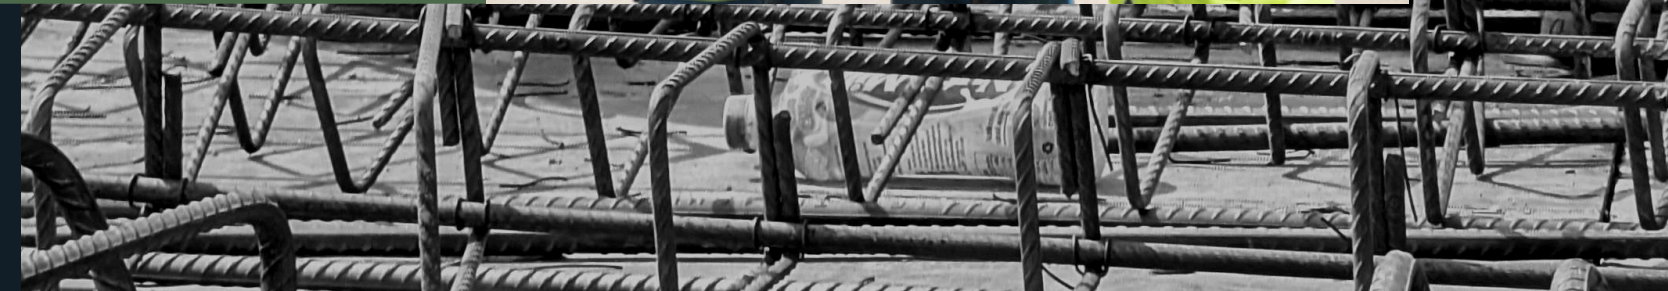

Mission Statement

To deliver integrated engineering, construction, and technical advisory services that exceed expectations, protect people and the environment, and support Uganda's economic growth.

“DES INDUSTRIES DYNAMISÉES, DES NATIONS EN MOUVEMENT!”

Our Core Values

INTEGRITY

Honesty and transparency guide every decision we make.

EXCELLENCE

We hold every project to the highest technical and professional standard.

SAFETY FIRST

The health and wellbeing of our people and communities always come first.

CLIENT FOCUS

We earn trust through responsive, tailored service on every project.

INNOVATION

We apply new thinking and technology to solve complex challenges.

SUSTAINABILITY

We build with the future in mind, minimizing our environmental footprint.

Our Services

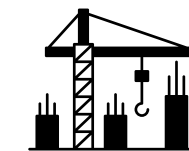

We deliver end-to-end engineering and technical services across the full project lifecycle from first concept to long-term operation.

Engineering Design & Consultancy

We turn your requirements into engineering solutions that are technically sound, cost-effective, and fully compliant.

- Feasibility studies and concept design
- Detailed engineering design – civil, structural, mechanical, electrical, and process
- Technical due diligence and peer reviews
- Specifications, bills of quantities, and tender documentation
- Project management consultancy and engineering oversight

Construction & Project Execution

We manage and execute construction projects with rigorous quality control, on-time delivery, and clear communication from groundbreaking to handover.

- EPC (Engineering, Procurement & Construction) contracting
- Civil and structural works
- Mechanical and piping installation
- Electrical and instrumentation work
- Site supervision and contract administration
- Quality assurance and progress reporting

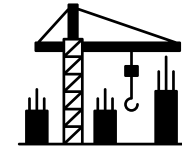

Our Services

HSEQ Management & Compliance Services

Safety, health, environment, and quality aren't afterthoughts at Assilum Developers. They're built into everything we do. We help clients build strong HSEQ cultures and stay ahead of regulatory requirements.

- HSEQ management system development and implementation
- Environmental and social impact assessments (ESIA)
- Safety audits, inspections, and gap analyses
- Incident investigation and root cause analysis
- Regulatory compliance advisory
- Quality management system (QMS) implementation and auditing
- HSE training and competency development programmes

Commissioning & Operational Readiness

We manage the transition from construction to operation safely and systematically, reducing risk and getting your asset running from day one.

- Pre-commissioning and commissioning planning
- System walkdowns and punch list management
- Mechanical completion verification
- Startup and operational readiness assessments
- Operations and maintenance manual preparation
- Operator training and knowledge transfer

Maintenance & Asset Integrity Management

We help protect the long-term value and reliability of your assets through structured inspection, maintenance, and integrity programs.

- Risk-based inspection (RBI) planning and execution
- Preventive and predictive maintenance strategies
- Corrosion management and monitoring
- Non-destructive testing (NDT) and fitness-for-service assessments
- Asset life extension studies and planning
- Maintenance optimization and reliability engineering

Industries & Sectors

OIL & GAS

Upstream, midstream, and downstream oil and gas infrastructure.

WATER & SANITATION

Water treatment plants, pipelines, and WASH infrastructure.

POWER & ENERGY

Power generation, transmission, and renewable energy installations.

INDUSTRIAL & MANUFACTURING

Plant engineering, maintenance, and facility management.

CONSTRUCTION & REAL ESTATE

Commercial, residential, and institutional construction projects.

GOVERNMENT & PUBLIC INFRASTRUCTURE

Roads, public buildings, and government facility projects.

Why Assilum

Client Partnership

We don't just complete projects. We build lasting relationships, acting as trusted advisors who put client success first.

Multidisciplinary Expertise

Our team spans civil, structural, mechanical, electrical, process engineering, and HSEQ – a one-stop technical partner for complex projects.

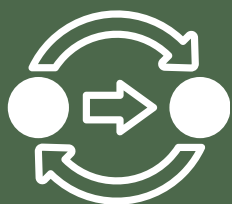

Regional Knowledge

A deep understanding of Uganda's regulatory landscape, local supply chains, and operating environment means fewer surprises for our clients.

Safety-Led Culture

We maintain zero-harm aspirations on every site, backed by rigorous HSE systems that protect workers, communities, and the environment.

End-to-End Delivery

From concept through to operations and maintenance, we stay with our clients across the entire project lifecycle.

Qualified Professionals

Our team includes certified engineers, project managers, safety professionals, and technical specialists with local and international credentials.

Director's Message

On behalf of Assilum Developers Uganda Ltd, I am proud to welcome you to a company built on technical excellence, safety, and genuine partnership. For over six years we have grown into a multidisciplinary engineering and construction partner trusted across Uganda and beyond delivering projects from underground tank installations in Kabale and Mbarara to the 1-million-litre tank project on the Tilenga development in Buliisa.

What sets us apart is how we work: one team spanning civil, structural, mechanical, electrical, and process engineering, supported by a rigorous HSEQ culture and a commitment to staying with our clients from first concept through to long-term operation and maintenance.

None of this is possible without our people, an experienced leadership team and engineering workforce who treat every client's asset as their own. As we grow, our vision remains clear: to become East Africa's most trusted partner in engineering and technical services.

Thank you for the trust you place in us. We look forward to building what comes next together.

Samuel Darius Mugisha

Completed Projects

- ✓ Kabale International Labour Organization – Underground Tanks
- ✓ Mbarara International Labour Organization – Underground Tanks
- ✓ Lugazi Sugar Factory – Furnace Oil Tanks
- ✓ Kinyara Sugar Works – Furnace Oil Tanks
- ✓ Butare Shell Round, Rwanda – Underground Tanks
- ✓ 1-Million-Liter Fuel Storage and Dispensing Unit , Buliisa – Tilenga Project
- ✓ Various installations at service stations and consumer facilities
